Discover our Fantastical Rooms

Talliston was a 25-year project that took the UK's most ordinary house and transformed it, room by room, by ordinary people on an ordinary budget, into 'Britain's Most Extraordinary Home' (*The Times*)

Starting as a three-bedroomed, semi-detached, ex-council house in Essex, today not a single square centimetre of the original house remains. In its place is an extraordinary labyrinth of locations, each set in many different times and places.
